Accidents ARE avoidable! Speed, care-lessness and unreliable cars are among the primary causes, and it is the responsibility of sviery driver to improve his driving habits. Where the mechanical condition of the car is at fault there can be no reasonable excuse.

Many children will be starting to school for the first time and are unfamiliar with traffic. I strongly urge every motorist to make certain that his car if in safe con-dition — and to use extreme care and com-mon sense.

Friends may think him unemotional and impene-trable, because he does not show his true feelings, but under the surface is an extremely sensitive and senti-mental nature.

# Redmen Edge Kingston Monarchs In Wild, Woolly Semi-Finals Opener

## CHIPS OFF THE SPORTS BLOCK By GEO. H. CARVER, Sports Editor

EVERYTHING BUT THE ELEPHANTS

If Central Onlarie Raschall League participants persist in staging their shemmignam here, Memorial Arena manager Walter Gerow had better look to his wrestling laurels. Ringmaster Stan Scruties and his not-so-merry Memarchs from Roddenville, cast o' here staged a hig-top performing.

There was a "goat" too. He performed at abstratop for the Monarchs and obligingly booted away three easy ones that gave the Reds three much-needed runs, in fact you might say Master McCormick presented the game to 'em .

There was about everything on the baseball calendar any one would wish to see. The rhubarbs were good for this time of the season, "Gabby". White, Monarch infielder, "gabbed" himof the season, "Gaboy" White, atonarch interior," gaboor namelet right out of the game and with cather Carnegle, who was restraining him, it seemed, from committing maybem on the person of Umpire Pal Calladine, of Peterborough, did a rhumba towards the dugout.

The "Unput" ordered the Kingston beach cleared and the limbs of the law who were odited in, did the job too litter-ally. The game was held up for several minutes, as both un-pires were the centre of a furious resitensisting arquing Kingston team. In fart'll warm', until they came up for the billed time that one could see them. The Kingston team left the field and refused to return, but changed their mind after eather. Then came a close decision at first and Rhuharb Number Two started

The first emanated from a decision at the plate when Manager, Sian Serution was tagged out and burk when he fell over Redmen catcher Petitit. Umpire Calladine said "he hasn't touched the platelyet" long atterwards but Scrutton thought differently.

You'd think II was payday at the mines mother, or an old sweat's first run ration aften four weeks in the line, they way those Meanarhs fore in the the plate Arms war-cé, and toances rakked. While was tessed out and Levia-dealt started what howked litte in fillimeter. As spectator wanted to take on the whole Kingston team, and a joily old time was had by all.

Finally the game got under way with Umpire Calladine announcing the game was under protest, Anyway Ecund Two is scheduled for tomorrow evening. Plenty of ring-side scals are available.

Vern Goyer made his debut as player manager of the Red-men, and handled his men excellently, we thought. The big fells looks a bit peaked after his sojourn in bed and he is not right yet, it isn't likely he will see any more diamond action

But this ferocious four should take the wrestling cake. Take Sky Joor Low, he's a prood little cus who fears no man his last soil weight. All to the code, yield, he lives to bettle with the soil weight. All to the code, yield, he lives to bettle with inches in height. They'il clash with Farmer Price snother heli-inches in height. They'il clash with Farmer Price snother heli-tack with the care area who seemed open in the ring if the has still and who fears up with Sonny Boy Capaldy who can hop-st-long with the best of 'on.

But don't sell 'em short. They are little firecrackers in their own right and can grunt, grass, hiss and "hotcha" in the beat Bunny Dunlep style. And don't try sitching one of them in your his-pocket to take home as a souvenir for Junior. You'll think you've ast on a bundle of juiced-up bumble-bees. Should be quile a show.

Rochester Red Wings are guaranteed at least a tie for third place in the International League, thanks partly to the no-hit, no-run game hurled by little Jackie Collium against Ottawa.

The five-foot, Tif-inch southpaw last night turned in the circuit's fourth no-hiter of the season, in bianking the Athletics 9-0 after the Wings: had taken the opposer 11-8.

There is symmetry and culture in the formation script, reflecting the writer's delicacy of feeling. The gentle curves of the small letters indicate graciountes, but the amount of pride and authoritativeness revealed will make this writer give the impression of being egotiatic.

### BENCH APPOINTMENTS

Among men in public life in Canada it is concided that as a station at all the legal profession produces as a continuous and the legal profession produces a continuous And they appear under the banners of all political parties. It is a reasonable assumption, that the membership of the Canadian Bar Association might he regarded as an acceptable cross-section or political opinion obstructes in noting that the Association has gone on record as being overwhelmingly opposed to political appointment to the hearth. It is because the legal profession oftens such a representative wise of conflicting the continuous and the conflicting of the

In both common sense and in fairness, we must reject the concept of a completely impartial judiciary unless the system of appointment is one which recognises that either John Diefenbaker or R. Here's the way one housewife puts it: "My husband and I believe that prices in general are lower at Dominion. We shop carefully at Dominion every week ... saving a penny here . . . a penny there. Then, once in a while we can afford to step out for an evening's fun!"

Have YOU tried DOMINION lately?

Do it today! Do all your shopping at Dominion for a month. You, too, will discover what many other women know; "You can cut food costs at Dominion!"

They've never forgotten the Gipper-

He was one of the most dazzling, dramatic, idolized athletes of all time. His running, passing, kicking and generalthip littled an obscure Indian surviversity to fame. In 22 games the cleated fury scored 58 touchdowns and stunned thousands with his 60-year drop kicks. Fam iddn't cheer when the Gipper left the games. They are sided in awa.

October Equire stricle, "The Gipper Didn't Die," recounts uch of the fact and fancy that made Knute Rockne's first glast legendary here. Rockne won much of his reputation as a re-misur and humorist telling stories about Gipp on the banquet

His favorite was about a 1919 game in which Gipp ran 80 arcs but had the play called back on a penalty; broke sway for. I yards but lost it on another whitting ghosted TO yards—and ad the toot go again. The Gipper came up to the referee and ald quietly, "Let's get together on this to save time. From now n, give me one whitele to stop—and two to keep going."

Open, against Nobraska, Gipp decided to give an unsung hird-stringer the glory of a touthdown. Twice the boy was shrewn for a loss; then Gipp told him, "Gris holo no bell—and lorn! tel go." A hyman tow truck, Gipp plunged from the 10-yard line and hautiet the ball-carrier across. The boy didn't get his coubdown though—an alert field judge caught the trick and assed the lirth a fifteen-yard penalty.

Notre Deme brought a fifteen-game svinning streak to the in Indians game and with only a few minutes left the Hoose is del 10-0. Glop, on the bench with a dislocated shoulder, we off his blanket. "Tin going in," he told Rockne, and Knute, so could handle surployd size, couldn't stop the Gipper.

Carrying tacklers on his back, hammering straight down-ield, ignoring passes, Gipp went 60 yards in seven plays. On he finds smesh at massed Indiana he tore his shoulder from its ocisis—but scored over the bodies of two groggy defenders.

Originally, Farouk was charged \$400 a day. Sinas the story didn't indicate if that was American or European plan, we have no way of knowing whether the \$400 includes the 10 eggs the ex-monarch is wont to dat for break-

Farouk argued the price down to \$330 a day on the pies that he's too "poor" to pay a full rate. It is always these har-line dividers between wealth and powerly which keep students of relativity scratching their heads.—

Yet-while the air has now been cleared on this issue we find the Council, despite some sensible but fulle protest, has ill advisedly recommended to Otlaws that the Chinese Communist Government be recognized "after the Krean war and when I has met requirements for Morean war and when I has met requirements for the Nationa' membership." Some of the 'commissioners protested that his subject was going beyond the business of the Council. We rather believe that many members of the church would support this tiew.

This writer is affectionate, sympathetic and demonstrative. The movement and slant of the writing tells of, a generous and sociable temperament.

He is charming and friendly. The well-proportioned script, Greek "ex' and graceful letter formations reflect the refinement of this person's nature.

He is imaginative, responsive and generous. There is, however, a lack of resistance and firmness which shows that he could be easily imposed upon, giving freely of money, time and sympathy.

He dislikes unpleasantness and will go out of his way to avoid it.

# Now on stream ... the Newest and most Modern refinery on the continent!

Designed and constructed to utilize Alberta's crude oil, Canadian Oil's great new refinery... the newest and most modern on the continent... is now operating at full canadity.

Producing gasoline REFINED WITH PLATINUM this plant possesses the ONLY Catalytic Reforming Unit of this type in Canada.

Situated on a spacious 400-acre site on the banks of the St. Clair River at Sarnia, this refinery is ideally located. Its supply of crude comes from the oil fields of Alberta to Superior, Wisconsin, via the Interprovincial Pipeline . . . in which Canadian Oil holds an interest . . and thence by tanker

across the Great Lakes. Shipments from the refinery can go out by water, rail or road with equal facility.

Capable of producing approximately one million gallons of petroleum products per day, this new plant sharply increases Canada's over-all refining capacity. In addition, through the manufacture of butylenes and propane gases... an assured market for which is supplied by neighbouring industries... it augments the nation's chemical productivity. Proud of this magnificent new plant... glad of the added opportunities for service which it presents... and eager to continue growing with Canada, Canadian Oil to-day looks to the future with confidence.

## "Here's Character"

This writer is energetic, imaginative and enthus iastic. These traits, combined with his keen intelligence will make him quick-thinking and vital.

\*\* The writing seems to dart across the page in an effort to keep up with the mind, showing that he will be impatient to carry out hill ideas, Despite his hast, all the "is' are dotted and "is' crossed, and there is clear spating between the words and lines of writing, reflecting the writer's clarity of thought and accurate judgment.

The long dashes to the 't's' show his ardor and enter-prise. He has a great deal of wit and humor, but it will be salted with irony.

# WHY is

the Westinghouse picture better?

buying your set you may not be too cond have points that maked one pacture, detert time aboutst-part someday, when the norsely has worn off, you'll wish you had been! Westinghouse has been concerned with the fine points of television for over 25 years—base before most present day makes were ever heard of.? Westinghouse knows what makes a better picture, and

Westinghouse incover what makes a better posture, and builds that knowledge into its sets. A pletter picture, must be clear and lifetiles. The picture-inde must be properly shaped and shelided to eliminate glare, and conside effection. The values of block and white and loses of grey must be true and positive, so that you don't have to siring your eyes to glick out details or squint against the brightness. A better picture must be free from distortion right to the edge, and, last but not least, it must be consistent, giving the same fine per-

formance all evening every evening.

When the novelty has worn off, and you is critically all your TV picture, these qualities will be the ones that count, and the attainment of these same qualities is what makes the Westinghouse picture better,

#### THRILLS: SPILLS:

We note by the advertising that Dick Burrows is staging another of those nerve-wracking flexiss called stock car racing at the Exhibition Grounds tonlish. A pecial fasture will be another "Wreck Tan" now. It is quite possible that this will be that meet of the season at the Exhibition Grounds since we understand the lights are but off Oct. ist.

#### BREAK LONG OVERDUE

If that Sunday roast didn't taste any more delicious than usual it at least deserved some special mention in the family blessing. The reason, of course, was that it

that multip beaung. The reason, of course, was that it is me to the swrape family table just about a dollar cheaper than it did a year ago.

But the most satisfying thing about it is that the household budget can count upon even lower estimates for family meas supplies. In Tecnoto, on Friday the jackers were quoted as stating that the current decline prices is "cointy the beginning" and that prices should drop "substantially." The control of the price is "cointy the beginning" and that prices was not only the price was not only the price was not only the price was not only overther. And we thing the presentable must who has done or the price was not only overther. And we thing the presentable must who has the control of the price was not only overther. And we thing the presentable must who has the knew that the premium prices could not continue in-definitely.

He home that the premium prices could not continue in-fernitely.

By perhaps quite a few producers taking her places this year through the break in the market her places they are through the break in the market heavily in grating stock, leased extra pasture and satisfact pasted that the prices would hold up long enough to repart a quick profit. The established eattleman will be hurt but not so serverily.
